

Kudos

Quick Tour

Welcome to Kudos, where it's easy to find suitable careers!

In-depth help is available in the User Guide

First answer questions about your likes and dislikes...

1. Choose the qualification level you hope to achieve.
2. Tell Kudos what you like and dislike about aspects of different careers. For the best career matches, try to answer all the questions.

Kudos will match you to careers, based on your qualification level and your likes and dislikes.

Then look at career suggestions...

Think about the careers Kudos has suggested. These are the careers likely to be most suitable for you. Click on a career title to see detailed information about how suitable it is for you.

Kudos also matches you to Types of Work. These are groups such as 'Art and Design' containing different types of careers.

Answer more questions

If you haven't done so already, we recommend that you answer all of the remaining likes and dislikes questions.

Compare careers

Choose two careers from your suggestions list. You can then make an easy comparison of how suitable they are for you.

Explore your career ideas

You may already have a career in mind, not in the list of career suggestions. Click Explore your own career ideas to view all the careers in Kudos, and how well your answers match your own career ideas.

Consider health issues

If you have any health concerns that you think may affect your choice of career, click Consider your health issues.

Now make an Action Plan...

Make your own Action Plan using your Kudos career suggestions.

Complete the personal information section.

- Comment on your choice of qualification level if you wish.
- Write down any career ideas of your own that you have been unable to find in Kudos.
- Record your subject qualifications.
- Record your study and training plans, and see how they relate to suitable careers.
- Think about what you need to achieve now and in the longer term, and write these down.
- Write down any other things that you need to remember or any ideas you have about your future career plans.
- Print your Action Plan, then discuss it with a teacher or adviser. Remember that your Kudos data will be saved, so you can come back to it later on.

Using Kudos in this way will give you a better understanding of what you want out of a career, and will help you plan your next step.

Thank you for using Kudos and good luck with your career investigations!
